ElecLink Statement Regarding Recent NTC Restrictions (update)

Since the commencement of commercial operations on 25th May 2022 ElecLink's capacity has been restricted by NGEN under the [GB NTC Methodology](#) approved by Ofgem via a [C28 derogation](#).

These restrictions have resulted in a maximum daily capacity offering by ElecLink to the market of 800-900MW in the GB>FR direction.

Throughout this period ElecLink has maintained 100% planned availability and capability to offer 1014MW in both directions.

An update on these restrictions can be found in the table below:

Market date:	Maximum capacity offering following restriction in the GB>FR direction:
25/05/2022	800MW
26/05/2022	800MW
27/05/2022	800MW
28/05/2022	00:00 – 16:00 (CEST) 800 MW 16:00 – 20:00 (CEST) 900MW 20:00 – 24:00 (CEST) 800MW
29/05/2022	00:00 – 16:00 (CEST) 800MW 16:00 – 20:00 (CEST) 900MW 20:00 – 21:00 (CEST) 800MW
30/05/2022	900MW
31/05/2022	900MW
01/06/2022	900MW
02/06/2022	900MW
03/06/2022	900MW
04/06/2022	900MW
05/06/2022	900MW
06/06/2022	900MW
07/06/2022	900MW
08/06/2022	900MW
09/06/2022	900MW
10/06/2022	800MW
11/06/2022	800MW
12/06/2022	800MW
13/06/2022	10:00 – 12:00 (CEST) 800MW 12:00 – 24:00 (CEST) 900MW
14/06/2022	00:00 – 08:00 (CEST) 800MW 08:00 – 24:00 (CEST) 900MW
